

Flanged fitting Progress M50

Milled aluminium, one-piece system

- Simple mounting; frontal screw mounting with low tightening torques
- Quick assembly with ratchet or cordless screwdriver (no bulky open-end spanners)
- Customised sealing units (with regard to hole pattern, sealing material, etc.)
- Absolute process safety; tightening "on block"
- No twisting of the cable during assembly
- High tightness (customer-specific requirements can be implemented)
- High strain relief forces
- Anodised aluminium: highest robustness and possibility of subassembly customisation
- No auxiliary materials and lubricants necessary

Article no:	1988.88.001
E-No:	126687003
EAN:	7611614467245
Material	Aluminium anodised
Seal	Progress modular system, customised design
Flat gasket	CR as well as NBR
Operation temperature	-40°C / +100°C
Protection class	According to the customer's request
Number of executions	1
Dimension A	88 mm
Dimension C	39 mm
Clamping range without insert min.	Customised
Clamping range without insert max.	Customised
Dispatch	1
