

## Earthing and equipotential bonding

### Earthing cleat 3/8 - 3/4"

- for 4 to 50 mm<sup>2</sup> cables or circular conductors up to Ø 8 mm
- low contact resistance due to two terminals
- Tinned brass

Tinned brass earthing clamps provide a secure connection to metal piping for water or heating supply and connect it to the main equipotential bonding.

- For connecting metallic conduits to the main potential equalisation point
- Durable contact between conduit and potential equalisation conductor
- Two contact screws provide large conductor contact surface
- Easy connection of multiple adjacent conduits to the potential equalisation point without interrupting the potential equalisation conductor
- Potential equalisation is not interrupted when removing a conduit
