

Flush-mounted junction boxes for flexible corrugated plastic conduits (KRFG)

Extension piece - 45mm - for flush-mounted junction box 9907/9907.21

- For increasing the front-to-back depth of the box or for sub-ceiling insulation
- Multiple extensions possible
- With two fixing screws

Article no:	9907.68.45
E-No:	155992298
EAN:	7611614240534
Length	115 mm
Width	115 mm
Depth	45 mm
Number of screws	2
Dispatch	5

Flush-mounted junction boxes with KRFG technology are specially optimised for wiring using KRFG (flexible corrugated plastic) conduits. The specially designed conduit inlets can resist the highest pull-out forces. The conduits can also be secured using rebar ties or cable ties. This enables the electrician to have confidence that the conduits will still be in place after concreting.

- Easy conduit entries, no conduits in the interior
- 8 x M25 conduit entries, more than any other
- Easy installation in hollow ceilings and hollow floors
- Prefix® connection detail to aid fastening to reinforcement bars
- Completely smooth inner surface, no risk of injury
- Optimised cross-shaped projections sealing conduit entry locations - easy to knock out, even when warm
- Optimised tying wire lugs for securing cables
